2023 – Learn JMeter by Examples
Session 1 - JMeter Installation Step by Step
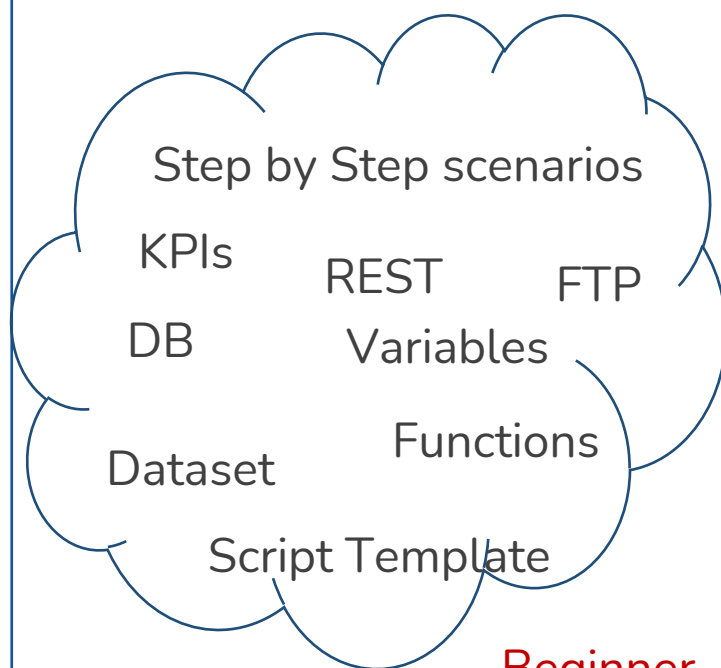

Performance TEST LabCN @DanielYuanPerf

1st March, 2023

# What You Will Learn

Learn JMeter By Examples

Step by Step scenarios

KPIs   REST   FTP

DB   Variables

Dataset   Functions

Script Template

Beginner

JMeter Deep Learning

Distributed Concurrent

CPU   Memory

Process & Thread

Network   Disk

Tool Nmon

Advanced

JMeter – Big Data Testing

Data Driven

Popular BD Scenario

BD Processing Arch.

BD Processing FW

Expert
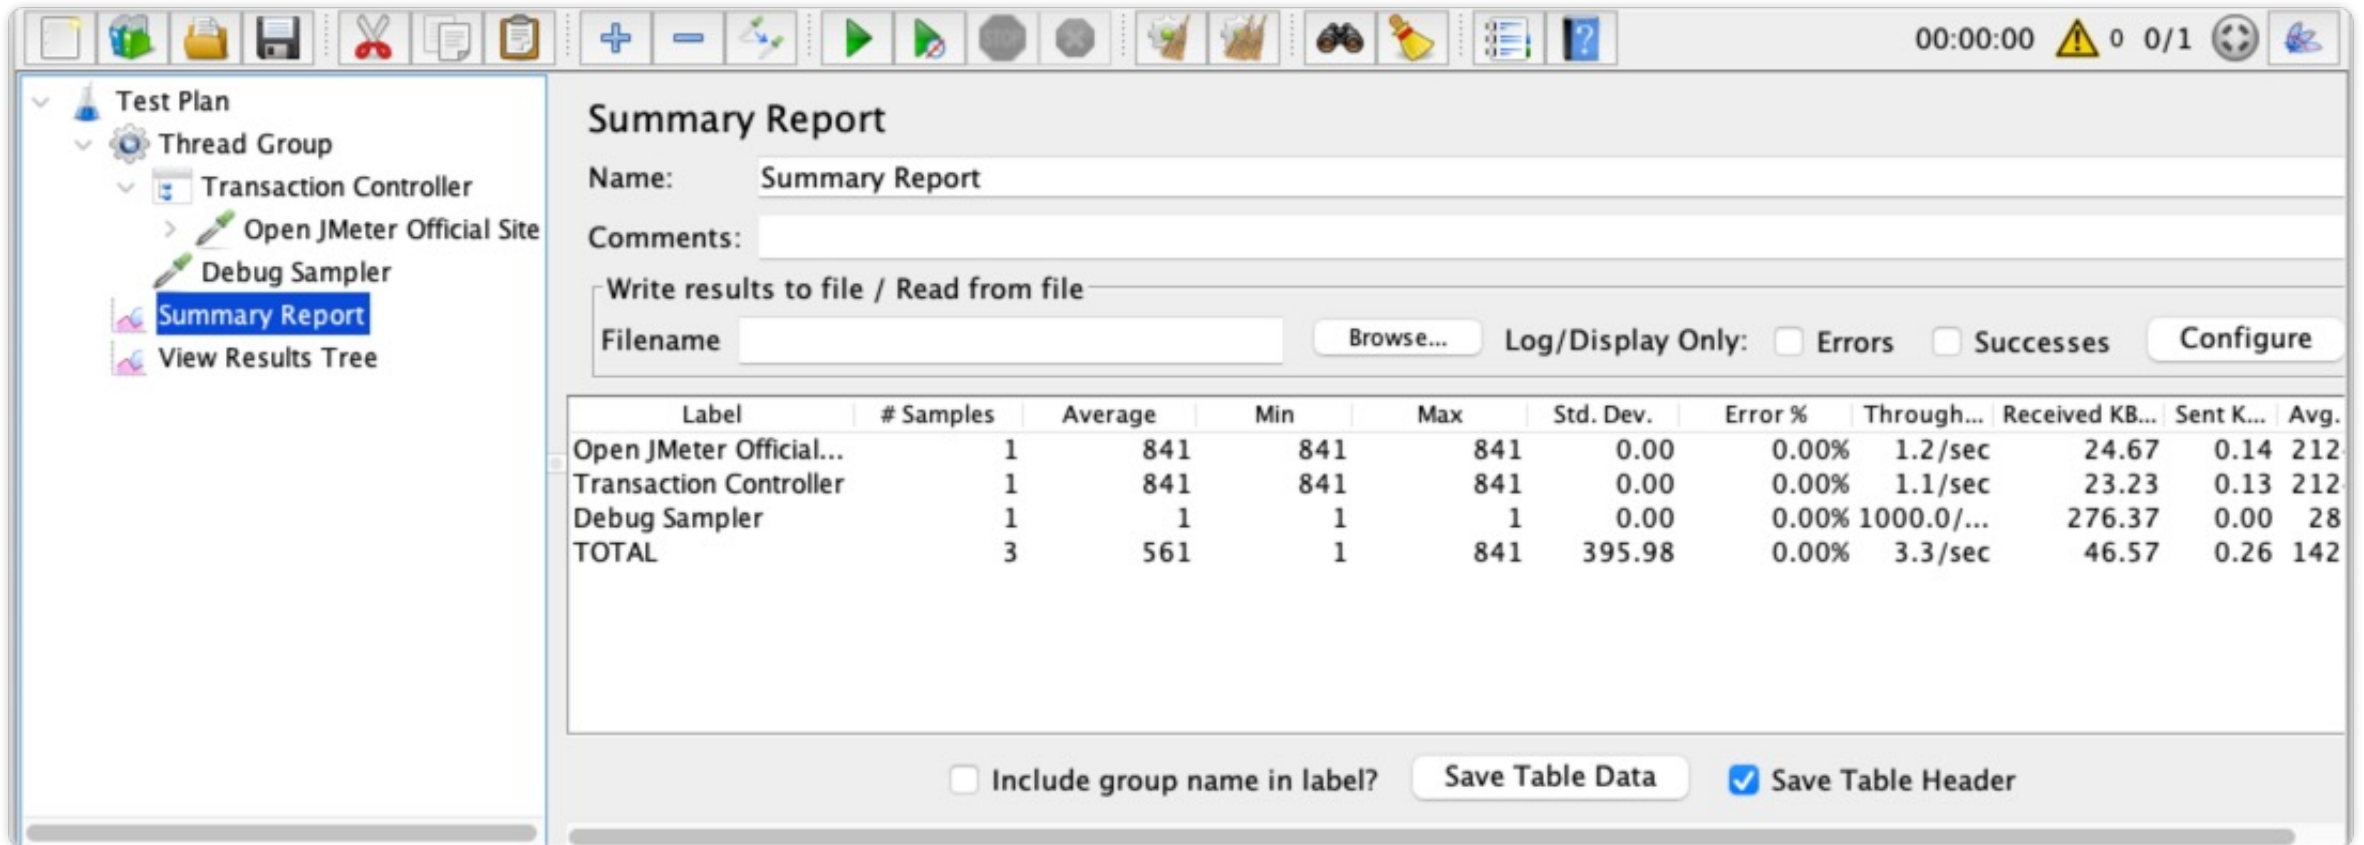

Real Scenario   &   Document.   &   JMeter Script Files

Jmeter Script Used In The Course </>

MacOS

Step 1 – Navigate to https://jmeter.apache.org/download_jmeter.cgi

Step 2 – Check if Java is installed which is mandatory

Java –version (Guide: https://phoenixnap.com/kb/install-java-macos)

Step 3 – Download and extract the tgz file

Binaries

apache-jmeter-5.5.tgz sha512 pgp
apache-jmeter-5.5.zip sha512 pgp

Step 4 – Copy to anywhere you want and open the bin folder

Step 5 – Open Terminal and navigate to the location of the bin folder and run command:

sh jmeter.sh

Windows

Step 1 – Navigate to https://jmeter.apache.org/download_jmeter.cgi

Step 2 – Check if Java is installed which is mandatory

Java –version   (guide: https://phoenixnap.com/kb/install-java-windows)

Step 3 – Download and extract the zip file

Binaries

apache-jmeter-5.5.tgz sha512 pgp
apache-jmeter-5.5.zip sha512 pgp

Step 4 – Copy to anywhere you want and open the bin folder

Step 5 – Open the jmeter.bat file

Verify If JMeter Works! ✅

Thank You!
